

# STC RMC Community Fact Sheet

---

## About the STC RMC

The Rocky Mountain Chapter of the Society for Technical Communications (STC RMC) serves the various needs of its members by:

- Promoting professionalism and the exchange of information among its members
- Educating the community on the value of technical communication

Founded in 1958, the Rocky Mountain Chapter of the Society for Technical Communication is based in Colorado and serves over 200 members. Although most of our members live and work in the metropolitan Denver area, we are geographically diverse. Many members live in the Fort Collins and Boulder areas, and some live as far away as Arizona, California, Tennessee, and Wyoming.

---

## Chapter Services

The STC RMC provides many services and benefits to its members and its community including:

- Chapter meetings in various geographic locations
- Networking opportunities
- Volunteering opportunities
- Employment information
- College student scholarships
- An active online community including a blog, discussion list, jobs list, social media-enabled website, and LinkedIn group

Details about the chapter's services, benefits, and meetings are available at [www.stcrmc.org](http://www.stcrmc.org).

## About the STC

The STC is an individual membership organization dedicated to advancing the arts and sciences of technical communication. It is the largest organization of its type in the world.

Its 14,000 members include technical writers and editors, content developers, documentation specialists, technical illustrators, instructional designers, academics, information architects, usability and human factors professionals, visual designers, Web designers and developers, and translators - anyone whose work makes technical information available to those who need it.

Society membership provides opportunities for ongoing learning and professional networking. Through the efforts of a small, full-time staff and a large network of volunteers, STC promotes the public welfare by educating its members and industry about issues concerning technical communication.
